The Summer Internship

At Discord, we offer a personalized experience for interns, and our aim is to offer an experience that mimics what it is like to actually work here. We match qualified interns with projects and groups, based on interests and skill sets and fully embed interns within those groups for the summer.

Internships are paid and are a minimum of 12 weeks, targeting a start date in June to accommodate varying school calendars.

The Team

The Perks team builds the features that go into Nitro, Discord's subscription service. We build features that users love - so much so that they're willing to pay for them - to promote Discord's vision of a multiple billions in revenue.

What You'll Do

- Building the revenue driving products and services at Discord.

Software Engineer Intern - Perks (Core Product) in Corvallis, OR

You'll Succeed In This Role If...

- We're a multi-platform team, so it's important to understand the development frameworks and fundamentals of one or more of our platforms: web (React, TypeScript), Android (React Native, Kotlin), iOS (React Native, Objective-C, Swift), and backend (Python and some Elixir).
- You believe in solving a problem completely rather than simply shipping a solution, and you know how to operate autonomously.

Bonus Points

- Strong open-source leadership or contributions
- Experience making hard tradeoffs between important goals
- Experience on a product team building in new markets

Salary of \$63/hour*

- Note: Disclosure as required by NYC Pay Transparency Law and CO Disclosure as required by sb19-085(8-5-20)
- Benefits listed below may differ from those available depending on terms of employment

Benefits and Perks

- Comprehensive medical insurance including Health, Dental and Vision (plus up to \$20,000 for gender affirmation procedures)
- Mental health resources and quarterly wellness stipends

Software Engineer Intern - Perks (Core Product) in Corvallis, OR

- A diverse slate of Employee Resource Groups
- Plus commuter contributions and other perks for office-based employees

About Us

Discord is a voice, video and text app that helps friends and communities come together to hang out and explore their interests — from artists and activists, to study groups, sneakerheads, plant parents, and more. With 150 million monthly users across 19 million active communities, called servers, Discord has grown to become one of the most popular communications services in the world. Discord was built without selling ads or user data and instead, offers a premium subscription called Nitro that gives users special perks like higher quality streams and fun customizations.

We're working toward an inclusive world where no one feels like an outsider, where genuine human connection is a click, text chat, or voice call away. A place where everyone can find belonging. Challenging? Heck yes. Rewarding? Double heck yes. It's a mission that gives us the chance to positively impact millions of people all over the world. **So if this strikes a chord with you, come build belonging with us!**
